

INFO 7375: Branding and AI

Become a Full-Stack Creative — From Concept to Code

INFO 7375: Branding and AI

Spring 2026 – Online (VTL)

Prof. Nik Bear Brown – AI engineering professor, creative technologist, creator of the Madison framework.

Prof. Nina Harris – Award-winning brand/creative director with 25+ years in global campaigns.

Course Overview

Branding and AI explores the intersection of **brand strategy**, **creative direction**, and **AI-powered tools**.

Learn the Madison framework (agent-based AI marketing intelligence).

Design an extension or improvement to address a real-world branding challenge.

Build your personal brand and professional portfolio, or startup brand, using advanced AI for storytelling, visuals, and online presence.

By the end, you'll have:

A Madison framework contribution and career or startup ready brand strategy & portfolio.

Learning Objectives

You will be able to:

Master the Madison framework and its agent-based architecture.

Create a personal or startup brand identity with storytelling, design, and strategy.

Design, implement, and document an AI-powered branding tool.

Assemble a polished portfolio, resumes and social that showcases both technical and creative skills.

You're not just learning branding or AI — you're learning how to lead in both.

Final Project Deliverables

1. Madison Framework Contribution

Extension,
enhancement, or new
component

Technical
documentation &
integration guide

Working prototype

Case study for your
portfolio and resumes

From concept to code to career — this is your full-stack creative launchpad.

Final Project Deliverables

2. Personal or Startup Brand & Portfolio

Brand strategy, UVP & visual identity

Brand assets & storytelling skills

At least one article and LinkedIn post

Your portfolio, website and resumes

Your portfolio is your passport — make it powerful enough to open any door.

14-Week Milestones

14-Week Milestones

Grading Breakdown

Madison Framework – 30%
Personal Brand & Portfolio – 30%
Quality – 20%
Midterm & Finals – 15%
Participation– 5%

Rubric highlights:

Technical implementation, innovation, integration, and presentation quality for Madison project.

Creativity, strategy, consistency, content quality, and portfolio structure for your brand.

Grades fade. Skills stick. Let's focus on the work that gets you hired.

Key Tools & Prerequisites

You should know:

Basic AI tools (ChatGPT, Claude, Adobe
Rush Vercel, Canva, etc.)
Programming familiarity

You will learn in class:

n8n automation for branding workflows
Madison framework architecture &
applications
Branding, storytelling & design basics

Every tool is just a brush — it's your vision that paints the future.

What You'll Leave With

By the end of this course, you will have:

A **real-world AI branding tool** integrated into an open-source framework.

A **fully formed personal brand & portfolio** ready for job applications or entrepreneurship.

Hands-on experience in **creative AI workflows** used in top agencies and brand teams.

Creativity and AI aren't rivals — they're co-founders of your next big idea.

The Pixar Lesson

That's exactly what we're doing in this class.

Pixar didn't just make animations.
They were: Engineers who told stories. Artists who coded.
Dreamers who built.

And that's what creative engineering is all about.
Ready to put on some hats?

INFO 7375

Branding & AI

INFO 7375 – Week 1 Class Agenda (1/10)

- 1 Welcome & Story
- 2 Full Stack Creative Presentation
- 3 Course Norms & Expectations
- 4 The Many Hats of Creative Engineering Presentation (20 min)
- 5 **Break 1** (10 min)
- 6 Assignment 1 Walkthrough + Grading Logic
- 7 Madison Framework Overview
- 8 Figma Board Demo
- 9 Student Figma Setup Time
- 10 **Break 2** (10 min)
- 11 Medhavy AI Textbook
- 12 Ari: Student Work Showcase
- 13 Quiz

Image Attribution

Practicing what we teach: All images properly sourced and credited.

AI-Generated Images:

Created by Midjourney using Prof. Nik's prompts. Slides 1, 2 & 12

Photography Credits:

If there were photographs, we'd give attribution here.

Logos & Screenshots:

Used under fair use for educational purposes.

Iconography:

Beautiful AI icon library. Slides 3, 4, 5, 6, 9 10, 11 and 13

Questions about image sourcing? Let's discuss. We'll be covering this later in the semester.
